THE KEY TO THE Q-WEB

The Q-web is a chronological timeline of our Hidden History, highlighting declassified government projects & operations, occultism within the upper echelons of the global power structure, lies we have been sold by the media, and generally things you won't read about in standard history books, yet can be easily referenced on Wikipedia. All information should technically be considered "theory"; and you are encouraged to research each point on this web yourself, and come to your own conclusion about it's validity. The Q-web blends generally accepted facts and plausible theories together, and challenges the viewer to use their own discernment.

Sections 1 and 2 at the top of the web are devoted to early history. The main timeline down the center (3) is divided into two categories, "Technology / Spirituality" on the left, and "War / Violence" on the right. Many topics relate to the closest adjacent topics without an arrow. Many connections that could be made are not drawn on the map for the purpose of maintaining legibility of the text. The "Key to the Q-web" is divided into 9 colorized sections, which correspond to the topics shown in the legend at the bottom of the diagram.

This information is being distributed freely in order to hasten what has been coined "The Great Awakening." A physical print-out is the recommended method of transferring this information. On the D.S.M.P. website you will find high resolution digital files of this artwork, as well as apparel and posters printed with the Q-web to help you spread truth and light. You are encouraged to share this information the most effective way you deem appropriate. The survival of our Republic and indeed the human species may depend on it. Godspeed patriots.
